9th IEEE Conference on Control Technology and Applications

CCTA 2025

CCTA SAN DIEGO
AUG. 25–27, 2025

CALL FOR PAPERS revised January 2025

WEBSITE ccta2025.ieeecss.org • **LOCATION** San Diego, USA • **DATES** Aug 25-27, 2025

The Control Systems Society's premier applications conference is being held in San Diego California. We invite you to attend for the latest in control technology and applications, participation in the community of control engineers, and to mix with and hear from the leaders in the field. An enticing program is being developed and your presentations will inform an eager and technically attuned audience.

Timing is doubly advantageous, and it is expected that many delegates will bring their families. To assist here, the organizers are working hard to provide support for attendees. This ranges from working with childcare agencies for a range of ages, with the opportunity for some financial support from the Control Systems Society, through to arrangements with San Diego Surf School for supervised trips to the beach, including transport, for interested participants. Heaven forbid that delegates might also avail themselves of this opportunity when they should be attending the mind-blowing technical presentations.

You are cordially invited to submit your best work and to attend CCTA2025 in late August in San Diego; surfing, dining, craft beer, outdoors, zoo. Oh, and a superb technical and social program to boot!

CALLS

Please see ccta2025.ieeecss.org for details

Contributed Papers are invited in the form of regular 6-page manuscripts

Invited Sessions presenting a unifying theme through 5-6 full papers

Tutorial Sessions and panel discussions addressing state-of-the-art control theory, advanced industrial applications and new toolboxes or methodologies

Workshops addressing novel control methodologies and applications to be held the day before the conference on 24 August 2025.
Workshop attendance is included in CCTA2025 registration
Recruitment interviews with prospective employers are being arranged

Papers published in the **IEEE Transactions on Control Systems Technology** after 1 June 2023 may apply to give oral presentations

Proposals for workshops and invited/tutorial sessions that are made by mixed industrial/academic teams are particularly welcomed.

CONFERENCE VENUE

The Westin Gaslamp Quarter Hotel in the heart of downtown San Diego is our venue. Sessions will be on one floor of the hotel and designed for maximal interaction. The rooftop Garden Terrace is available throughout for chance encounters, events and receptions. The summer setting, location and ample space should foster meetings, meals and activities – *Hang onto your hat!*

The Garden Terrace in summer
