CALL FOR PAPERS

The event will be held in Kos Island, Greece, May 9–11, 2024. Several pre-conference workshops will be held on May 8, 2024.

The IEEE Global Engineering Education Conference (EDUCON) is one of the flagship conferences of the IEEE Education Society. EDUCON2024 is the 15th in a series of conferences that rotate among central locations in the IEEE Region 8 (Europe, Middle East, and Africa).

Held annually since 2010, EDUCON provides an opportunity to scientists, professional engineers, and students to present their work, publish their results, exchange ideas, and network for future scientific and industrial collaborations.

The conference will continue to serve as a catalyst for connecting local and international stakeholders, hence adding value to the global dialogue on how to positively contribute to the advancement of engineering education.

Accepted and presented papers will be submitted to the IEEE Xplore Digital Library for publication and will appear in the Conference Proceedings Citation Index (CPCI)—an integrated index within Web of Science.

TOPICS OF INTEREST

Papers in all areas of engineering education are invited, with particular emphasis on the main focus of the conference Multidisciplinary Approaches in Engineering Education and on current issues in Engineering Education such as:

- K-12 STEM Education Initiatives
- Game-based Learning and Gamification
- Student-centered Learning Environments
- Non-traditional Lab concepts
- Engaging Undergraduate Students in Research
- Multidisciplinary and Transdisciplinary Education
- Digital Transformation
- Virtual and Remote Labs and Classrooms
- Ethical Challenges
- Generative AI in learning and educational settings
- Women for Leadership in Engineering Equity, Diversity, and Inclusion
- Education in the Industry 5.0 era
- Future-oriented and Personalized Educational Concepts
