

CALL FOR ABSTRACTS

IMPORTANT DATES

February 20, 2023

Abstract submission deadline

March 13, 2023

Acceptance notification

April 24, 2023

Preliminary Paper, Special Session and Panel Summary Papers, and Workshop Outlines submission deadline

June 12, 2023

Notification of paper revision requirements and final acceptance notification

July 10, 2023

Revised paper submission deadline

July 24, 2023

Final acceptance notification

August 7, 2023

Final Camera-Ready paper submission & copyright deadline

Oct 18 – 21, 2023

Conference Dates

The theme of the annual FIE 2023 conference is: "Engineering Education in a Diverse, Global World."

We encourage authors to consider the FIE 2023 theme for submissions.

The conference features peer-reviewed papers (Work-in-progress and Full papers), special sessions, pre-conference workshops, and panels across all engineering education disciplines.

The main tracks (along with some examples) as well as submission instructions for the FIE 2023 conference are listed on the conference website at 2023.fie-conference.org.

FIE welcomes Full Papers up to eight-pages and Work-in-Progress Papers up to four-pages. The work-in-progress and full papers can be categorized into the following categories:

1. **Innovative practice**
2. **Research to practice**
3. **Research**

Work-in-progress papers are typically in frontier areas where it is understood the work is in an early or intermediate stage and authors are seeking feedback from the community. Further, FIE welcomes proposals for panels, workshops, and special sessions in order to disseminate scholarly efforts in non-traditional ways.

Abstract submission deadline: February 20, 2023.

At this time, FIE 2023 is scheduled for an in-person meeting at College Station, TX, USA, on Oct 18–21, 2023. Options for remote attendance are under discussion, and the outcome, including information on conference fees, will be announced on the conference website 2023.fie-conference.org. However, for each accepted paper, one author must register and participate in the conference.
