Sony Storage Media Manufacturing Corporation

## Tour description

The Local Committee of Intermag 2023 is honored to offer student participants the opportunity to join the “Storage Media Factory Visit”. Since Sendai has long been known as a world leader in the development of magnetic materials and devices, this is an excellent opportunity to learn about research into magnetic materials, practical applications of devices, and the development of magnetic recording technology, as well as a look into the future. The Factory Visit will include visits to Sony Storage Media Solutions Corp. and Sony Storage Media Manufacturing Corp., which has been producing magnetic tape media since 1954.

## Important information

The Factory Visit is for registered Intermag student participants only. Masks must be worn indoors (we prioritize your health). There will be no cloakroom facility and we strongly recommend that you do not bring luggage. Kindly take care of your personal belongings. No lunch will be provided. The organizer will not provide travel insurance for tour participants. During the Factory Visit due consideration will be given to everyone's safety and there are no hazards that could lead to accidents within the scope of common-sense behavior. Please note that the Visit may be cancelled due to COVID-19.

## Co-organized by

**Sony Storage Media Solutions Corp., Sony Storage Media Manufacturing Corp.**
