

Call for Proposals to host IEEE TALE 2024, 2025 and 2026

IEEE TALE (<https://tale-conference.org/>) is the IEEE Education Society's flagship Asia-Pacific conference series, catering to researchers and practitioners with an interest in **engineering, technology, and integrated STEM education** as well as those interested in the **innovative use of digital technologies for learning, teaching, and assessment in any discipline**.

The conference target audience is diverse and includes those working in the higher education, vocational education and training (VET), K-12, corporate, government, and healthcare sectors.

The IEEE TALE Steering Committee is currently seeking proposals from institutions to organize and host the TALE 2024, 2025 and 2026 conferences. In the first instance, prospective organizers/hosts should contact the Steering Committee Chair, Manuel Castro, at mcastro@ieec.uned.es to express an interest and to obtain a copy of the pro forma for proposals. The deadline for the receipt of proposals to host TALE 2024, 2025 and 2026 is **30 June 2023**, and applicants will be notified as the next series of conferences will be appointed in the IEEE TALE Steering Committee.

The IEEE TALE Steering Committee will look especially favorably upon proposals from teams that include individuals who have been involved in prior TALE conferences, and that contain diverse geographical, cultural, gender, and disciplinary representation. Preference will also be given to prospective host cities and countries that have yet to host a TALE conference (see <https://tale-conference.org/> for a list of past and upcoming locations), but only proposals from the Asia-Pacific region (IEEE Region 10) will be considered; those who are based in other parts of the world may be interested in the IEEE Education Society's other conference series, including Frontiers in Education (North America, IEEE Regions 1–7), EDUCON (Europe, Middle East and Africa, IEEE Region 8), EDUNINE (Latin America, IEEE Region 9) and LWMOOCs focused in MOOCs worldwide. TALE conferences expect to go back from 2024 to the traditional face-to-face format but we should have exceptionally options to online presenting for authors with issues on traveling, health or other serious issues.

TALE welcomes participation and engagement in our conferences and activities at all levels without regard to race, religion, gender, disability, age, national origin, sexual orientation, gender identity, or gender expression.

Please direct enquiries to the TALE Steering Committee Chair,
Manuel Castro, at mcastro@ieec.uned.es.
